A Woman's Optolone of the Woman's Rights TO THE EDITOR OF THE NEW YORK HERALD.

Run.—In year paper of Wednesday. Abby Fries, the spent and factious of his. Davis and her paper, is reported to have said at the Wessan's Convention, that the Wessan's Right Journal was printed by firs. Phoebe Paterson and her girls, and that she soon intended putting more girls on to its composition. She, I blush to say, stated an unmitigated falsebood; and every "strong minded man and woman," as they call themselves, on the platform inner that a lie was being told; but, as it was expected to be profitable, none had the more courage to contradict it. Mrs. Davis' paper is printed at the office of the Providence Post, and is softher printed by me nor any other woman. Why the crual lie was utweed I will explain.

For two years I have also carefully persued the specahes and watched the boastings and progress of the Wessan's Rights party; I have also carefully persued in reports of the press thereon, and concluded to try the truth and sincerity of all by a practical test. I waited upon each of the delegates to the convention separately, and afterwards addressed them collectively, upon the miser able condition of the tailoreases and seasuarresses of this oity—how machinery was depriving them of sorn their former scanty pittence—and proposed a plan by which their crying wrongs might be remedied. I proposed, as a noble proposition for the convention, the extending the scope of woman's industrial taculities, at renumerative prices. I claim on behalf of twelve american families and myself the right to fair past laber, as the true back of "woman's rights;" and on behalf of eur common was, I apased to biorecus shots. MONEY MARKET.

FRIDAY, Sept 9—6 P. M.

There was a slight improvement this merning in quotations for the leading fancy railroad stocks, the coal stocks and other fancies. At the first board to-day Cumberland Coal decilized 1/2 per cent; Canton Company, 1/2; Crystal Palace, 1/2; New Jersey Zine, 1/2; Gold Hill Mine, 1/2; Sixth Avenue Railread, 1/2. Eric Railroad advanced 1/2 per cent; Long Island, 1/2; Hudson River Railroad, 1/2; New York Central Railroad, 1/2; Michigan Central, 1/2. Nicaragus was without alteration not eithestending the large sales. Potomac Copper sold freely at three per cent.

three per cent.

The following sales were made at the mining board

this port to-day amounted to \$186,789 06; payments, \$878 500 84- balance, \$8,850 281 20.
After the adjournment of the board to-day the follow-

ing atocks were sold at public auction by Mr. S. Draper:-

The fight of the Kilkenny cats, alias the Nicaragua Trensit and the Pacific and Atlantic Swamship companies commences in full vigor at San Francisco previous to the departure of the Sierra Newada, and, from the low rates at which travellers can now be transported between the Atlantic States and California, we shall not be sur-prised to learn that the monopoly is all on the side of the passengers—the rate of fare having been reduced on those just arrived from \$300 cabin to \$100 and from \$150 to \$75 in the steering. With this fore aste of the benefit to \$75 in the steerage. With this fore taste of the benefit of low prices, and the signs of the controversy, exhibiting evidences of a deeper depression, we have no doubt that passengers will be paid for their patronage until the weaker party shall be compelled to mock under, and draw off. The Law and Asplawall party have the capital and the power of self-denial, while the Nicaragua party have the speed, but not so much backbone, which is exemplified by the fact that when Mr Asplawall sold the steamer Cortes to the Transit Company for \$120,000, he gave to the President, Mr. Charles Morgan, two and a half per cent for his andorsement, and on account of which \$40,000 have been paid. It is a very pretty fight as it now stands, and what may be death to the companies will be fun for the travelling public. There is no-thing like competition, either among steamships or rail reads. A few stockholders in some of the companies may be losers, but the people at large and commerce are

benefitted.

The receipts of the Madison and Indianapolis Raticon4 Company, for August 1868, were \$24,700; same time in 1852, \$22,600—increase, \$2,100 The Jackson Missierippium states that the High Court

The San Francisco P ices Current of the lith of August, in speaking of financial matters, says:—

The shipments of gold dust to New Orieans and to Leadon, apparently small in the one on e and large in the other, give no indication of the amount of business between those places and ourselves. Quite a pertien of the \$3 504, 201 75 in gold dust shipped to the litter place, was to meet exchange sold for the Valparsiso. China and India markets; white on the other hand, many of ear banking houses place their Lundon agents in funds by sterling bills sent forward from New York.

Of the \$140, 713 shipped to New Otleans quite a portion was for account of Southers, or more probably South Western miners; many of our banking housest never remit gold dust to blew Orleans.

To Valparsiac, our shipment of \$201,082 27 was merely respectable, the large amount of independence to Chila having been paid by other means, of which exchange en to indicate a small trade between San Francisco and that port.

To the different ports of China we have made large remittances—a total, is all, of over baif a million of deliars, in which gold dust shows to have been \$352,000. We may here be permitted to recall to toe minds af our readers our speculations, in a late number, upon the faitheness, present and remote, of this compulsory recoving of our gold dust on the part of the Chinase merchants, our market being drained of dollars. But few shipments of coin are shown to have been made lately, and the total fails far below that of the Gust.

The shipments of pold dust for the Gust half of this year, as compared with a corresponding period in ling the polyment of our gold fust for the first half of the symment of parties remitting; and own must continue to fine it thus until the opening up of the hidden treasures to the river heds.
